The nomination, which was unanimous, consumed only a few minutes Mr. Low was found by a notification committee and escorted to the hall. He made a speech of acceptance, in which he said that it was an especial gratification to him to be renominated, because it was a time when the country needed to be protected from theorists. On the other side of the Atlantic, he said, there was employment for the people, and few really industriously inclined men were compelled to be idle, while here in America industries had become paralyzed. The speaker believed that the condition of things here could be remedied by the election of McKinley and Hobart and the enforcement of the twin policies of sound money and protection. The employes frequently applauded the speaker. In the street were fully a thousand men. There is no doubt that the Sound Money Demo-crats will nominate a third State ticket at the convention which will be held in Brooklyn next. Thursday E. Ellery Anderson, after the nomina-tion of Mr. Thacher was known in the city yester-day, was asked it the Sound Money Democrats of New-York would support Mr. Thacher, and he re-plied. "It is utterly impossible for any consistent gold Democrat to support Mr. Thacher. No man who will stand on a platform which he knows to be wrong and unjust is entitled to the vote of any self-respecting man."

The Bankers and Brokers' Republican Club will raise another McKinley and Hobart flag in New-st. o-day. In a few days a flag will be raised across Broadway by the tenants of the Edison and Parish buildings, the tenants in these buildings having all subscribed for the purpose, taking their incentive from the Bankers and Brokers' Club, regardless of politics. At the present time the membership of the Bankers and Brokers' Club is 4,500, with two-thirds of the banks still to hear from.

Paul Vandervoort, of Omaha, the noted Middleof-the-Road leader, was here to urge the Populist
committee to remain firm for the future of the
party and to demand a fair division of the electors, including the withdrawal of Sewall. Badges
were donned reading "Middle-of-the-Road-No
Watson, no Bryan." The best offer that the Democrats would make was three electors, and they
argued that on a basis of the vote cast in the last
election, when the Populists cast less than 30,000
votes, they would be entitled to only one and a fraction of a vote. The offer was declined by a vote
of 12 to 1, and the committee then named a full

with Senator Allen's notification to Bryan of his nomination for President by the Populist party Mr Bateman, in an interview this afternoon, said to a

representative of the United Associated Presses:

The recent election in Maine should be sufficient to convince the entire country that the nomination of Arthur Sewall was either a colossal biunder or a dark-dyed crime. Intil lately I have been inclined to believe it was the former, but it certainly now looks as if it was deliberately planned and executed as a crime. The presence of Sewall on the National ticket resulted in the practical annihilation of the Democratic party in this State. If he remains on that ticket it will inevitably result in the annihilation of the Populist party. I have read Senator Alien's letter of notification to Mr. Bryan. Of course, it is a farce. It is in a pir with all the doings of the men who are trying to sell out and disrupt the People's party. After we get done laughing over the Senator's mess we shall quite likely take some steps to find out whether Mr. Bryan accepts our nomination and our platform of principles. At St. Louis all of his friends urged that we should nominate him, as he was a Populist, and believed in all our principles. We want to know whether these statements are true.

But nothing is more certain than that the Buffalo Convention will afford no relief so far as National affairs are concerned, and that the mistakes of Chicago will be repeated and industed, while the State nominations and the State platform will be accepted and ratified by the regular State Democracy. In this situation, adhering to the time-honored principles and policy of the Democratic party, 'The Union' feels it a duty to that party. State and Nation, and to its Democratic positionery and itself, to proclaim a Democratic platform upon which all can consistently stand, and leave those who approve to assert it in such manner as their judgment may direct.
